Message from the Representative

Everyone has a nationality, don't you think?

We all take it for granted....

A person who has no nationality is considered stateless by all governments.

The fact is, more than 12 million people are estimated to be stateless throughout the world, and Japan is no exception.

The Stateless Network is a nonprofit, multi-ethnic organization that offers support to stateless people who are facing a number of problems and seeking assistance and advocacy to improve their social life. It also organizes educational and/or outreach opportunities including workshops/forums to promote social awareness/understanding about statelessness.

Anyone can work with us regardless of their national status.

We envision a society in which everyone, especially stateless people, can benefit and be respected.
